

Cheers to Moon Valley! By Jena Ritchie, NBC-HWC, Moon Valley Chiropractic

Moon Valley Chiropractic is excited to celebrate 25 amazing years of aligning spines, relieving pain, and improving well-being as a beloved neighborhood clinic. Chiropractic care embodies a tradition of healing and hope. This anniversary represents a significant milestone for the practice, which was initially founded by Dr. Gary Grover in 2000.

Moon Valley Chiropractic endures as a cornerstone of chiropractic care in the local community. Dr. Reichow graduated from the Southern California University of Health Sciences in 2004 and worked as an associate in various clinics, including working with athletes from two local professional sports teams. He first visited Moon Valley Chiropractic as a potential partner in 2010 and then quickly found himself enjoying working alongside Dr. Grover for the next 13 months. Their camaraderie often extended to the golf course, where the duo held weekly matches.

In November 2011, Dr. Grover announced his "retirement." However, after one year, he resurfaced and began practicing out of his home in Prescott. Another eight years passed, and Dr. Grover rejoined Moon Valley Chiropractic with a limited schedule. Their partnership has been fruitful, with both doctors keeping each other adjusted and sharing golf tips; more importantly, they have generously offered continuous excellent care to the Moon Valley Community. Drs. Grover and Reichow have been dedicated to their practice from the outset, continually learning new techniques and investing in state-of-the-art equipment to enhance the practice's capacity to treat patients effectively.

During his time here, many significant events have occurred. Dr. Reichow met and married his wife, Rani, and together they've created a beautiful family. Rani happily runs a dance instruction business known as Sharpen Up Dance Team Training, and will be hosting kids' camps this summer. Their children, Ricky and Rosey, continue to thrive and grow. The years at Moon Valley Chiropractic are truly a blessing and joy. Dr. Reichow looks forward to continuing the legacy for many more years. Stay tuned to our clinic and social media channels to learn about the various ways we will be celebrating this 25-year milestone throughout the year. Moon Valley Chiropractic sincerely strives to accept new patients and accommodate same-day appointments when possible.
